## ***Greetings Tamworth Breeders and Enthusiasts!***

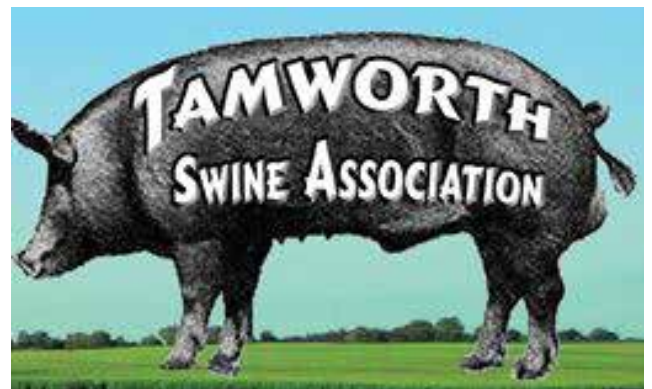

Now is a fantastic time to be involved with the Tamworth industry. The past year has brought record high prices as the top end of the Tamworth pigs produced last season found new homes. It was an electric moment as the “Record Breaker” boar was auctioned at Springfield. I would say it was a price we won’t see again, but that is nonsense. Each year the prices have increased as more and more people are beginning to realize the advantage of keeping Tamworth pigs. That demand drives the sale of more gilts each year as these excellent boars are put to work, creating more excitement with each litter born. Since our feed costs remain low due to the price of corn the prospects for profit for Tamworth breeders are looking bright. That is a good thing for the industry as a whole.

Our Tamworth board has voted to make our Type Conference a joint conference with the Hereford breed this year. It is a progressive step to be sure and it may feel a little strange to start. Change is sometimes difficult but if we are not willing to make changes we are soon left “in the dust”. Please join us at Wilmington, Ohio this year and see what you think. We believe this change will bring us added excitement, sales, and exposure to more buyers. Then let your board members know how you like this new format. We’re betting you will!

Over and over again I hear how breeders are thrilled with the mothering ability of the females compared to other breeds. Never forget this breed is quite old and many very smart breeders have left their mark on prosperity by the work they have done within this breed. It is up to us to take advantage of their wisdom and breeding skills so that the Tamworth breed will continue to advance and retain their advantages for the future breeders. We have a diverse audience, from the pasture fed pork enthusiasts to the show pig industry. Don’t forget to take advantage of all sections of our market with your breeding and advertising experts. You might be pleasantly surprised with your efforts!

Live Long and Prosper Tamworth Enthusiasts!  
(with apologies to Leonard Nimroy)

## 2015 Tamworth Queens

This year we have four Tamworth Queens to represent the breed!

The 2015 Tamworth Queens are (from left to right): Elizabeth Rake (WI), Samantha Pigg (IN), Courtney Gulick (IN), and Kaitlyn Tricker (IN). All of our queens exhibit Tamworths at their county fairs and respective state fairs. They have been great leaders for our younger members! They do an excellent job of putting

on and helping with the activities for the junior members at the National Show and Sale!

## 2014-2015 Tamworth Scholarship Winners

*Sara Geer*

Sara Geer and Kaitlyn Tricker were the 2014-2015 Tamworth Swine Association's scholarship winners. Sara is from New Vienna, OH and Kaitlyn is from Ladoga, IN. Sara is attending Ohio University studying Social Services. Kaitlyn is attending Purdue University studying Agriculture and Agriculture Economics. Congratulation to these fine young ladies and best of luck in their future endeavors!

*Kaitlyn Tricker*

Scholarship applications are available from the breed secretary. Applications are due by August 15<sup>th</sup> to the breed secretary.

## *A Note From the Secretary...*

Thank you for making 2014 a great year to be a Tamworth breeder and enthusiast! The demand for Tamworths is strong, so please make sure you take the time to register your litters. It is cheaper and easier to register the pigs when they are young.

The 2015 National Tamworth Show and Sale will be held in combination with the National Hereford Show and Sale. I think this is a great opportunity to network with breeders and buyers. As we get closer to the event, look for emails and posting on the website for deadlines.

Brad, Lucas, Caleb, and I plan on attending and showing pigs at the Team Purebred event in Springfield. We will then be on the road showing at state fairs. Please plan ahead with your paperwork needs, as I will be out of the office during those times. You are welcome to call, text, or email me.

Have a safe and fantastic 2015!

## Longtime Tamworth Breeder Passes

**Phillip Wayne Francis**  
**March 6, 1930 - December 5, 2014**

Phillip Wayne Francis, 84, of Crawfordsville passed away Friday morning, Dec. 5, 2014, at St. Vincent Hospital, Indianapolis.

Mr. Francis was born March 6, 1930, at Crawfordsville, to Lewis and Evelyn (Cox) Francis. He was a 1948 graduate of Crawfordsville High School and retired from Mid-States Wire after 40 years. His memberships included Sons of the American Legion Post #72, Eagles Lodge and the City Bowling League. He loved Purdue. He enjoyed pig farming. In his youth he began showing pigs in 4-H and continued this hobby with his children and grandchildren.

He first married Sharon McClain and she passed in 1950. He then married Carol Fitzwater in 1971 and she survives.

Also surviving are his children, Randall Lee Francis, Jeffrey Phillip Francis, James Christopher Francis, Richard Scott Francis, John David Francis, William Fitzwater, Donna J. Myers, Deborah Lynn Francis, Carla Hurt, Arlene Edwards, Sally Tribbett, Patty Fitzwater, Sandra Harshbarger, Pamela Bagley, Jan Sullivan, Amy Peters, Kimberly Francis and Keri Francis; sister Patricia Barnes; 42 grandchildren; and 39 great-grandchildren.

He is preceded in death by his parents; step-father Don Wingert; son Michael Lewis Francis; and sister Penny Osborne.

# TAMWORTH EAR NOTCHING SYSTEM

Guide for showing location and value of ear notches for marking litters and individual pigs. Breeders may change over to this system in 1966.

**THIS IS THE ONLY SYSTEM WHICH WILL BE PERMITTED AFTER JANUARY 1, 1967**

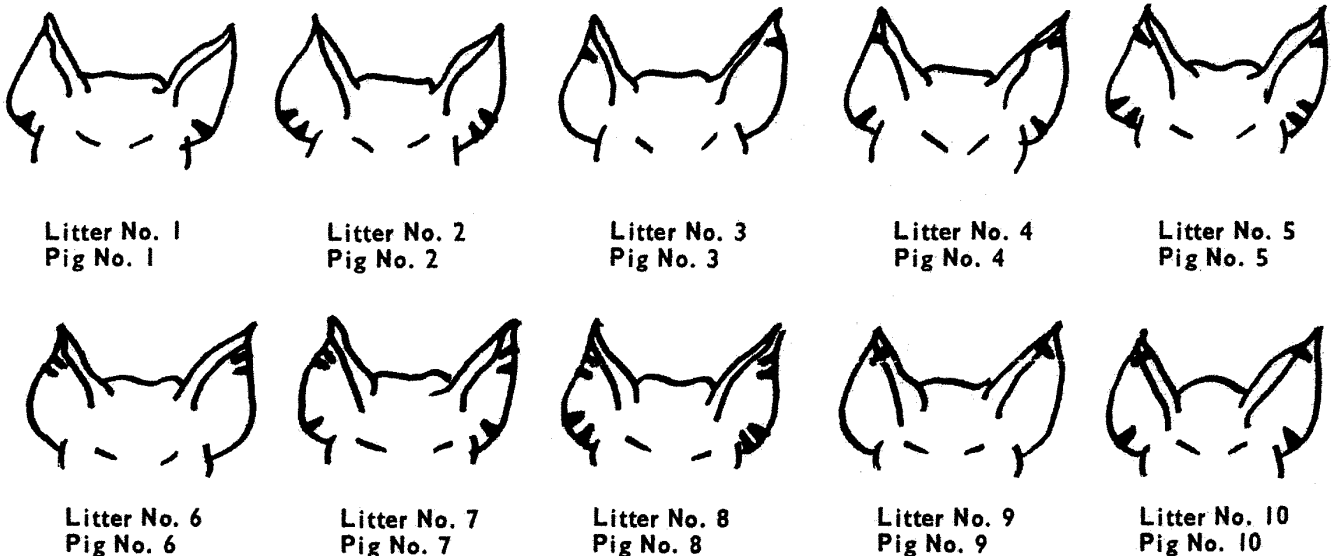

Number litters consecutively for one calendar year. Start over with Number 1 at the beginning of each year. The Association may refuse to register or certify for showing any animal not properly ear marked. All pedigrees sent in for recording must be made out on the blanks of this Association.

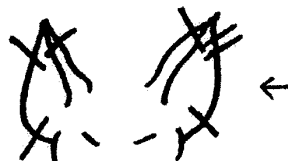

The right ear is the Litter number and all pigs of the litter will have the same notch in the right ear.

The left ear is the pig's specific number. Each pig in a litter will have a different notch in the left ear.

Use least number of notches to show number.

To avoid confusion when showing the ear notches on a Litter Report Card, or Pedigree Application Card, indicate notches by a single straight line thusly:

This would be Litter No. 13 Pig No. 16

## Tamworth Hall of Fame Inductee....

Shirley Brattain

Congratulations to Shirley Brattain on being the 2013 inductee into the Tamworth Hall of Fame. The Brattain family has been raising, showing, and selling Tamworths all over the Midwest since 1960. As breed secretary for 12 years, Shirley has been a tireless supporter, promoter, and Tamworth enthusiast. Shirley's legacy in the Tamworth breed is on to very proud of.

### TAMWORTH ORIGIN AND HISTORY

The Tamworth originated in Ireland where they were known as "Irish Grazers", being given that name due to the fact that they were such wonderful foragers. About 1812 Sir Robert Peel, being impressed with the characteristic of these hogs imported some of them to his estate at Tamworth, England. It is from this place they derived their name. An English authority, who calls it the "Mahogany" or "Grizzly" pig, says it was extensively bred in several of the midland counties of England early in the nineteenth century. When the droves were mainly kept in the woods and forests. They are not a composite breed, and are thought by many to be one of the oldest and purest breeds in Britain.

### THE TAMWORTH BEFORE IMPROVEMENT

They were long of limb, long in the snout and flat in the rib. They were active, hardy, good rustlers, and very prolific, but they were slow feeders and late in maturing.

### THE IMPROVEMENT OF TAMWORTHS

This has been almost entirely effected through selection, judicious breeding, and management. It is now pretty generally conceded that the blood of other breeds has not been used to any extent in the improvement of Tamworths. Tamworths have been used in developing other breeds in the United States.

### WHEN IMPROVEMENT WAS EFFECTED

They appear to have been improved to a considerable extent before the middle of the 19th Century, as they were given First Honors at the Royal Agricultural Society's Show when competing with large breeds as early as 1847. But subsequent to this period they sank into obscurity, and were only known in some local districts. About 1877 a demand grew up for more hogs of the bacon type, and breeders of Tamworths brought their favorites to the front in England.

### THE FIRST TAMWORTHS IN THE UNITED STATES

The first Tamworths in the United States were those imported by Thomas Bennett of Rossville, Illinois in 1882. In the following decade, Tamworths were also imported into Canada and the breed gradually became known in both countries. The Tamworth has two characteristics for which it was entitled to preeminence; i.e.; an unusual proportion of lean meat, and large litters of pigs; also that Tamworths will make as many pounds of gain, largely lean meat, from a given weight of feed as will hogs of any other breed. From these early imports, the Colorado agricultural College's three year farm average for all sows was ten live pigs to a litter. A two-year old sow weighing 750 pounds had 18 live pigs at one farrowing, and a Tamworth at the Iowa Agricultural College raised 33 pigs in one year.

### ORGANIZATION

Tamworth Swine are protected by registration in Great Britain, the United States and Canada. The American Tamworth Swine Record Association was organized in 1897.

# GM SCG Steppingstone 6-1

## (SCG CHF Cornerstone X Survivor/EF Mister)

Thanks to Tom Shanafelt for giving me the opportunity to own this boar.

The good 10-4 sow (mother of Record Breaker and SCG Charlie) was raised here. She left sisters, daughters, and granddaughters here. They are all intensely line bred, going back to EF Mister from Ton Fenton that I called Mr. T.

June '14 gilts being bred to Steppingstone. They are brother/sister mating, genetically identical to the 10-4 Sow (4x EF Mister genes).

Limited Jan-Feb-March pigs available.
