Shown by Ryan Shaw

We would like to thank Clint High, D&H Showstock, and Fentons for purchasing our Reserve Grand Boar and to Marshall and Shirley Brattain for their purchase of our 1<sup>st</sup> place boar at the 2016 National Tamworth Type Conference. As well as a huge thank you to everyone who purchased pigs from us in 2016. We look forward to seeing everyone again in 2017!

Contact us for all of your showpig and breeding stock needs. We will have December-February litters available starting the end of March. Breeds include Berkshire, Duroc, Hampshire, Hereford, Poland, Spot, Tamworth, Yorkshire, and Crossbred. Also look for us at the Illiana Pig Sale, CPS Extravaganza, NSR Extravaganza, and several Customer Appreciation Sales.

## 2017 Tamworth Queens

This year we have three Tamworth Queens to represent the breed!

Elizabeth Rake from Waunakee, WI  
Kaitlyn and Emily Tricker from Ladoga, IN

These ladies will represent the Tamworth breed at the National Show and Sale, Team Purebred events, and state and local swine shows. We are excited to have Elizabeth, Kaitlyn, and Emily represent the Tamworth Association!

## 2016-2017 Tamworth Scholarship Winners

Elizabeth Rake of Waunakee, WI was our 2016-2017 scholarship winner. Elizabeth has shown Tamworths for years and is a great representation of the youth membership. Congratulation to these Elizabeth and best of luck in her future endeavors!

Scholarship applications are available from the breed secretary. Applications are due by August 15<sup>th</sup> to the breed secretary.

# Golden Acres Farm

Breeding Stock, Show Pigs and Feeder Pigs available year round!

Thank you to all of our buyers! We are looking forward to a great 2017!

Thank you to Clothier Genetics and Sugar Creek Genetics for purchasing breeding stock standing at stud.

Selling 100 plus head: December through February born Tamworth, Hereford, Berkshire, Spots, Chester White, Hampshire, Landrace, and Crossbreds

27947 Darden Road

New Carlisle, IN 46552

## ***A Note From the Secretary...***

What a year! Thank you for making 2016 an even better year to be a Tamworth breeder and enthusiast! The demand for Tamworths is strong, so please make sure you take the time to register your litters. It is cheaper and easier to register the pigs when they are young. The 2017 National Tamworth Show and Sale will be held in Eaton, OH in conjunction with the National Hereford Show and Sale. The show and sale will be held the last weekend in August. I think this is a great opportunity to network with breeders and buyers. As we get closer to the event, look for emails and posting on the website for deadlines.

I would encourage as breeders to get the information out about Team Purebred to your youth members purchasing show pigs. The National Junior Show held in Springfield, IL at the end of June offers the youth many opportunities. There is more to do than showing hogs! We have also had some kind donors step up and pave the way for Tamworths to show at some of the regional Team Purebred show. Please spread the word!

Brad, Lucas, Caleb, and I plan on attending and showing pigs at the Team Purebred event in Springfield. We will then be on the road showing at state fairs. Please plan ahead with your paperwork needs, as I will be out of the office during those times. You are welcome to call, text, or email me.

Have a safe and fantastic 2017!

Kelley

### *Divine Swine*

Registered Tamworths, Berkshires and Herefords

2016 Champion Tamworth Gilt, Team Purebred

Woolly pigs are excellent foragers, hardy, and have a unique appearance.

We have also added Mangalitsas (Hungarian Woolly Pigs) to the herd! Blondes and swallow bellies available.

The farm is located in northeastern Ohio in North Bloomfield.

Marcie Helberg and Jeremiah Hatala

# TAMWORTH EAR NOTCHING SYSTEM

Guide for showing location and value of ear notches for marking litters and individual pigs. Breeders may change over to this system in 1966.

**THIS IS THE ONLY SYSTEM WHICH WILL BE PERMITTED AFTER JANUARY 1, 1967**

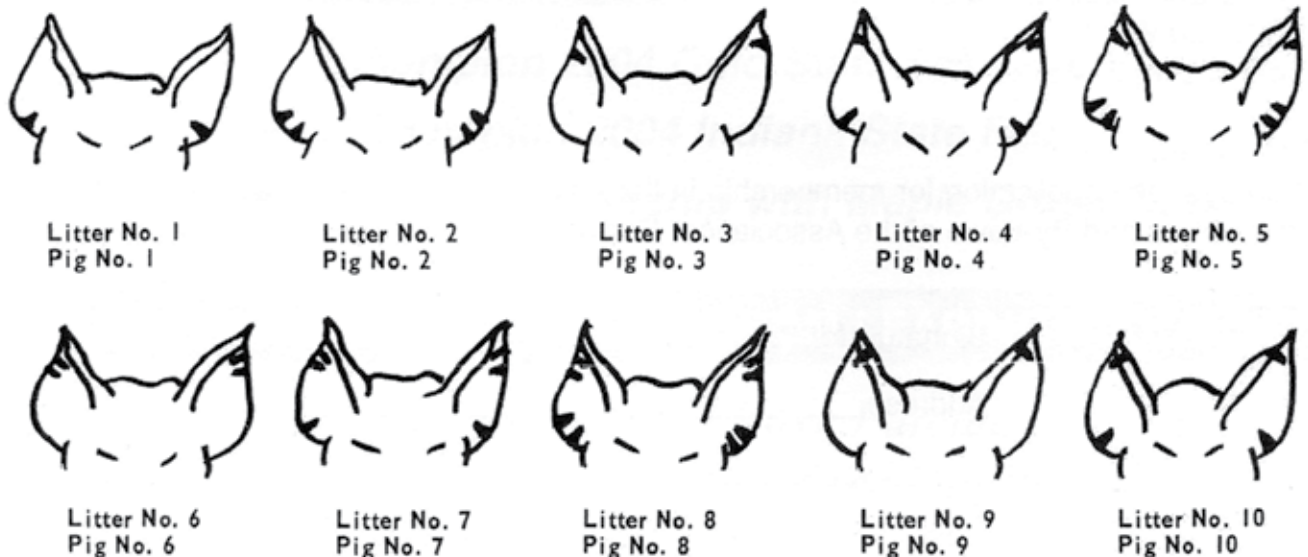

Number litters consecutively for one calendar year. Start over with Number 1 at the beginning of each year. The Association may refuse to register or certify for showing any animal not properly ear marked. All pedigrees sent in for recording must be made out on the blanks of this Association.

The right ear is the Litter number and all pigs of the litter will have the same notch in the right ear.

The left ear is the pig's specific number. Each pig in a litter will have a different notch in the left ear.

Use least number of notches to show number.

To avoid confusion when showing the ear notches on a Litter Report Card, or Pedigree Application Card, indicate notches by a single straight line thusly:

This would be Litter No. 13 Pig No. 16

### TAMWORTH ORIGIN AND HISTORY

The Tamworth originated in Ireland where they were known as "Irish Grazers", being given that name due to the fact that they were such wonderful foragers. About 1812 Sir Robert Peel, being impressed with the characteristic of these hogs imported some of them to his estate at Tamworth, England. It is from this place they derived their name.

An English authority, who calls it the "Mahogany" or "Grizzly" pig, says it was extensively bred in several of the midland counties of England early in the nineteenth century. When the droves were mainly kept in the woods and forests. They are not a composite breed, and are thought by many to be one of the oldest and purest breeds in Britain.

### THE TAMWORTH BEFORE IMPROVEMENT

They were long of limb, long in the snout and flat in the rib. They were active, hardy, good rustlers, and very prolific, but they were slow feeders and late in maturing.

### THE IMPROVEMENT OF TAMWORTHS

This has been almost entirely effected through selection, judicious breeding, and management. It is now pretty generally conceded that the blood of other breeds has not been used to any extent in the improvement of Tamworths. Tamworths have been used in developing other breeds in the United States.

### WHEN IMPROVEMENT WAS EFFECTED

They appear to have been improved to a considerable extent before the middle of the 19th Century, as they were given First Honors at the Royal Agricultural Society's Show when competing with large breeds as early as 1847. But subsequent to this period they sank into obscurity, and were only known in some local districts. About 1877 a demand grew up for more hogs of the bacon type, and breeders of Tamworths brought their favorites to the front in England.

### THE FIRST TAMWORTHS IN THE UNITED STATES

The first Tamworths in the United States were those imported by Thomas Bennett of Rossville, Illinois in 1882. In the following decade, Tamworths were also imported into Canada and the breed gradually became known in both countries. The Tamworth has two characteristics for which it was entitled to preeminence; i.e.; an unusual proportion of lean meat, and large litters of pigs; also that Tamworths will make as many pounds of gain, largely lean meat, from a given weight of feed as will hogs of any other breed. From these early imports, the Colorado agricultural College's three year farm average for all sows was ten live pigs to a litter. A two-year old sow weighing 750 pounds had 18 live pigs at one farrowing, and a Tamworth at the Iowa Agricultural College raised 33 pigs in one year.

### ORGANIZATION

Tamworth Swine are protected by registration in Great Britain, the United States and Canada. The American Tamworth Swine Record Association was organized in 1897.
